DETAILED ACTION

Election/Restrictions

1. Claim 1 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 9, 13, 15, 17-20, 33-43 and 52-58, directed to the other species are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

REASONS FOR ALLOWANCE

2. Claims 1-13, 15 and 17-66 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Claims 1, 13, 17, 21, 33, 39, 44 and 52 are allowable over the prior art for at least the reason that the prior art fails to teach or reasonably suggest, "each diffractive element of the set is individually contoured and positioned so as to preferentially route at least a portion of an optical signal between the first and second optical ports" as set forth in the claimed combination. Claims 2-12, 15, 18-20, 22-32, 34-38, 40-43, 45-51 and 53-66 are also allowable based upon their dependence on claims 1, 13, 17, 21, 33, 39, 44 and 52.

The prior art of record, Maeda et al and Brady et al teach a method of forming a volume hologram comprising a set of diffractive elements and forming first and second

ports in an optical medium. However, the prior art does not teach that each diffractive element of the set is individually contoured and positioned so as to preferentially route at least a portion of an optical signal between the first and second optical ports and there is no motivation or teaching to modify this difference as derived.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alessandro V. Amari whose telephone number is (571) 272-2306. The examiner can normally be reached on Monday-Friday 8:00 AM to 5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Drew Dunn can be reached on (571) 272-2312. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
